TUBERCLE

Index to Volume 65 (1984)

Acute-phase reactant proteins in Indonesian patients with pulmonary tuberculosis, A study of – 23
Addresses of out-patients – assessment in routine clinical practice in Madras, S. India, A novel system to obtain – 41
Adeyemo, A. O. and Omole, C. O.: Oesophagopleural fistula complicating a case of tuberculous pyopneumothorax 59
Al-Arabi, K. M., Al-Khider, M. E. and Sadiq, S.: Osteitis of the humerus following BCG vaccination 305
Al-Khider, M. E.: see Al-Arabi, K. M. and others
Angiotensin-converting enzyme and delayed hypersensitivity in pulmonary tuberculosis, Serum – 117
Arnau, J.: see Vilaseca, J. and others
Ausina, V., Gurgui, M., Verger, G. and Prats, G.: Iatrogenic disseminated *Mycobacterium chelonei* infection 53

Backman, A., Pirila, V., Forstrom, L. Heiskala, M., Nurmela, T., Tala, E. and Uotila, K.: A new method for testing tuberculin skin reactivity – Chamber Test 279
BCG vaccination, Lymphadenitis as a late complication of – 205
Bloch, A.: see Snider, D. E.

Case-finding by publicity campaigns, Survey of patients presenting to the Government Chest Service in Hong Kong and the effects of active tuberculosis – 173
Case-finding in persons with inactive pulmonary tuberculosis or fibrotic lesions: a 5-year study in Tuberculosis Clinics in Amsterdam, Rotterdam and Utrecht, The yield of – 237
Chemoprophylaxis against tuberculosis in Frobisher Bay, Canada, Ten year evaluation of a trial of – 93
Chemotherapy for pulmonary tuberculosis given once weekly in the continuation phase in the rural areas of Hong Kong, Study of a fully supervised programme of, – 5
Collins, C. H.: see Yates, M. D. and others
Congenital tuberculosis – 81
Control in Somali refugee camps, Tuberculosis – 111

Deaths in Hong Kong attributed to tuberculosis during a five-year period, Survey of – 253
Dorken, E., Grzybowski, S. and Enarson, D. A.: Ten year evaluation of a trial of chemoprophylaxis against tuberculosis in Frobisher Bay, Canada 93

Easton, P. A. and Hershfield, E. S.: Lymphadenitis as a late complication of BCG vaccination 205
Edwards, M.: see Smith, D. W. and others
El-Ansary, E. H. and Grange, J. M.: Qualitative differences in tuberculin reactivity in patients with tuberculosis, occupational contacts and non-contacts 191
Ellard, G. A.: The potential clinical significance of the isoniazid acetylator phenotype in the treatment of pulmonary tuberculosis 229
Enarson, D. A.: see Dorken, E. and others
Erickson, P.: see Pust, R. E.
Ethambutol-induced hyperuricaemia – 195

Ferritin levels in patients with microcytic anaemia complicating pulmonary tuberculosis – 185
Fine, P.: Leprosy and tuberculosis – an epidemiological comparison 137
Fodor, T.: Bulk staining of sputum by the Ziehl-Neelsen method 123
Forstrom, L.: see Backman, A. and others
Fox, W.: see Satagopan, M. C. and others

Geuns, H. A. van: see Styblo, K. and others
Girling, D. J.: The role of pyrazinamide in primary chemotherapy for pulmonary tuberculosis 1
Grange, J. M., Kardjito, T. and Setiabudi, I.: A study of acute-phase reactant proteins in Indonesian patients with pulmonary tuberculosis 23
Grange, J. M., Mitchell, D. N., Kemp, M. and Kardjito, T.: Serum angiotensin-converting enzyme and delayed hypersensitivity in pulmonary tuberculosis 117
Grange, J. M.: see El-Ansary, E. H.
Grange, J. M.: see Yates, M. D. and others
Grzybowski, S.: see Dorken, E. and others
Guardia, J.: see Vilaseca, J. and others
Gupta, V. P.: see Khanna, B. K. and others
Gurgui, M.: see Ausina, V. and others

Heiskala, M.: see Backman, A. and others
Henderson, A.: Ferritin levels in patients with microcytic anaemia complicating pulmonary tuberculosis 185
Hershfield, E. S.: see Easton, P. A.

Hong Kong Chest Service/British Medical Research Council: Study of a fully supervised programme of chemotherapy for pulmonary tuberculosis given once weekly in the continuation phase in the rural areas of Hong Kong 5
Hong Kong Chest Service/British Medical Research Council: Survey of the previous investigation and treatment by private practitioners of patients with pulmonary tuberculosis attending Government Chest Clinics in Hong Kong 161
Hong Kong Chest Service/British Medical Research Council: Survey of patients presenting to the Government Chest Service in Hong Kong and the effects of active tuberculosis case-finding by publicity campaigns 173
Hong Kong Chest Service/British Medical Research Council: Survey of deaths in Hong Kong attributed to tuberculosis during a 5-year period 253

Isoniazid acetylator phenotype in the treatment of pulmonary tuberculosis, The potential clinical significance of the – 211

Kardjito, T.: see Grange, J. M. and others
Kemp, M., see Grange, J. M. and others
Khanna, B. K., Gupta, V. P. and Singh, M. P.: Ethambutol-induced hyperuricaemia 195
Krishnaswami, K. V.: see Satagopan, M. C. and others

Ladefoged, A.: see Smith, D. W. and others
Leading articles – 1, 81
Lema, E. and Stanford, J.: Skin-test sensitisation by tubercle bacilli and by other mycobacteria in Ethiopian school-children 285
Leprosy, Skin testing with mycobacterial reagents – 63
Leprosy and tuberculosis – an epidemiological comparison – 137
Letters to the editor – 229
Liver abscess, Tuberculous – 127
Lopez-Vivancos, J.: Vilaseca, J. and others

Meanwell, C. A. and Pattison, C. W.: Osteoarticular tuberculosis – an unusual presentation 133
Meijer, J.: see Styblo, K. and others
Mycobacterium xenopi, Massive haemoptysis caused by – 201
Mycobacterium chelonei infection, Iatrogenic disseminated – 53
Mitchell, D. N.: see Grange, J. M. and others

Nigerian adults, Determining *Mycobacterium tuberculosis* infection in high prevalence groups: a comparative study among – 263
Notification rates in ethnic groups in England between 1971 and 1978/79, Changes in tuberculosis – 83
Nunn, A. J.: see Sutherland, I. and others
Nurmela, T.: see Backman, A. and others

Oesophago-pleural fistula complicating a case of tuberculous pyopneumothorax – 59
Omole, C. O.: see Adeyemo, A. O.
Osteitis of the humerus following BCG vaccination – 305
Osteoarticular tuberculosis – an unusual presentation – 133

Pattison, C. W.: see Meanwell, C. A.
Peritonitis: diagnostic value of the ascitic/blood glucose ratio, Tuberculous – 47
Phenytoin-isoniazid, Improvement of psychomotor epilepsy due to interaction of – 229
Pirila, V.: see Backman, A. and others
Pleurisy, Contralateral pleural effusion during chemotherapy for tuberculous – 209
Poncet's disease, Two cases of – 301
Prats, G.: see Ausina, V. and others
Pust, R. E. and Erickson, P.: Determining *Mycobacterium tuberculosis* infection in high prevalence groups: a comparative study among Nigerian adults 263
Pyrazinamide in primary chemotherapy for pulmonary tuberculosis, The role of – 1

Radhakrishna, S.: see Satagopan, M. C. and others
Reeser, P.: see Smith, D. W. and others
Resistance of *Mycobacterium tuberculosis* to isonicotinic acid hydrazide (isoniazid) and to thiophen-2-carboxylic acid hydrazide, A study of the relationship between the – 295
Roy, S.: see Wilkinson, A. G.

Sadiq, S.: see Al-Arabi, K. M. and others
